

### **Medical Insurance Policy and Consent**

At Spectacle, we are committed to providing you with the best possible care when it comes to your eye health needs. We're in-network with most major medical and vision insurance plans and are happy to take care of that billing for you. Our team will pre-verify insurance to make sure that your plan is currently active and our providers are in-network with your plan. We're happy to answer any questions about cost prior to your appointment and provide you estimates to the best of our ability.

By providing Spectacle consent to bill your insurance for office visits, you acknowledge that Spectacle does not assume financial responsibility for the following:

- Copays
- Unmet Deductibles
- Coinsurance

Specific questions regarding your coverage for the items listed above should be directed to your health insurance provider. We look forward to being your trusted eye care provider now and into the future.
